SUBMARINE MAKES NEW BLOCKADE LAW

London, Nov. 2.—Considering the American note from the viewpoint of the modern development of subma-

"But, unfortunately," he adds, "I find as a seaman little indication of his new manner of looking at the subject in the American nose."

Referring to the condition that there is no difference between examining a vessel of a thousand tons except the difference in time required, the correspondent observed: "Time is the essence of the problem. We can not afford to have our war vessels hanging about exposed to submarine attack while suspected ships are being searched and those naval experts who advised the Washington government can not have had any experience with the particular danger which awaits boarding vessels. It would be suicidal if our authorities ignored the threat of the submarine and its lurking on the necessities of war."

WANTS BIGGEST NAVY.

Ferrose Not Satisfied With Second Place.

San Francisco, Nov. 10.—For yachtsmen dead-enders, one hearing the

of each State, reorganization of the army and pay for the National Guard were advocated today by

United States Senator Estes C. Ross

to that of England," he said "but
I myself favor having the greatest
navy in the world."

BIG GUNS IN ACTION

Paris, Nov. 9—The official communication issued by the war office tonight says:

"Artillery actions took place on great part of the front, particularly on the plateau of Novavron, where we concentrated a very effective

fire on the enemy organizations.
"In Champagne the cannard
has again been very violent on bo
sides in the region of Tabor and
Butte du Mesnil.

"In the Vosges, to the south
Lusse, our trench guns demolished
a blockhouse and shelters of the
enemy." The Belgian official communication
reads:

"...and prevailed last night. From 8 a.m. to 11 a.m. the enemy's machine guns at Banacampelle, Perryze, Bous and at Ceasckerke were bombarded all day. Some projectiles were directed against our advanced positions at various points along our lines."

KILLED IN STORM.

Large Number of Persons Killed at Great Bend, Kan.

Great Bend, Kan., Nov. 10.—Between 50 and 60 persons are believed to have been killed in a tornado which swept this town shortly after 7 o'clock this evening.

The storm passed over the South part of the city, wrecking the waterworks and electric light plant. The town is in darkness and confusion tonight.

According to reports that reached the long distance telephone office at 9 o'clock when wire communication was re-established, the Atchafalaya and Santa Fe Railway station was demolished and half the houses of the city were wrecked.

Three large flour mills and a number of grain elevators were in the path of the storm.
